Goals for fuse16

1. To make an impact in an issue alongside several Atlanta nonprofits

2. To learn design thinking as a practitioner, rather than in a "classroom" setting

3. To model the possibilities and opportunities for doing school differently

What is fuse16?

Fuse16 is a unique design thinking experience, hosted and facilitated by the Mount Vernon Institute for Innovation (MVIFI). In its fifth year, fuse16 provides educators and folks from other industries an opportunity to learn design thinking by doing design thinking!

What’s New for fuse16?

This year fuse16 will incorporate feedback from our users to create a better and more enriching experience such as:...
